5. CATALOGUING

Lots will be catalogued alphabetically by the name of the dam – **2025 Starting Letter = A**

6. VENDOR OWNERSHIP (See Condition of Sale 9.10)

Please refer to this Condition to see what is required where there has been any change in the ownership of a Lot between the date of the Sales Entry Form and the time at which the Lot is put up for auction.

7. REGISTRATION COSTS

Where costs are incurred by a Purchaser in registering a Lot as catalogued or in obtaining all required registration papers for a Lot, these costs will be the responsibility of the Vendor. Vendors of Lots coming from overseas must apply to their Stud Book Authority for export certificates to be sent to Weatherbys.

8. INSURANCE (See Condition of Sale 8)

We strongly recommend that insurance cover is arranged against mortality and theft.

9. REPOSITORY

Pre-Sale X-rays, video endoscopies and other stipulated information may be lodged in the Tattersalls Repository. The Repository Rules are printed in the catalogue and may also be viewed via the Tattersalls Website (www.tattersalls.com).

Documentation requirements for this Sale are available on the Tattersalls Documentation Notice for this Sale and listed on your Online Account. Template certificates for completion by your vet are available to download from the Tattersalls website, www.tattersalls.com/documentation.php

11. PRESENTATION OF LOTS

- a) To ensure that Lots realise their full potential and facilitate inspection by prospective Purchasers, Vendors should send their horses to Newmarket by **Friday 11th April for the Craven Sale and Monday 28th April for the Guineas Sale.**
- b) Someone must be in attendance to show horses from 8.00 am until the end of the day's Sale or until the horse is sold and contact has been made with the Purchaser.
- c) Vendors should take their Lots to the pre-parade ring as soon as they are summoned by Tattersalls staff and at least half an hour before they are due to enter the Sale Ring.
- d) Tattersalls recommends that horses should be handled in either a bridle or a headcollar with a chifney. Additionally, we advise that foals are handled using a headcollar with foal bit.

12. SALES PROCEDURE

- a) Vendors and their staff are requested to always observe good Health and Safety practices.
- b) Vendors are reminded that only hay and straw are provided; the Vendor must supply other feed.
- c) Head-collar numbers must be collected from the Control Office on arrival. These should be worn when Lots are being shown and when presented for sale.
- d) When a Lot is to be X-rayed, this must only take place in the designated veterinary boxes.

13. BLOOD TESTING (DRUGS AND PIROPLASMOSIS) (See Condition of Sale 23, 25 and 26)

Vendors should note that horses sold will be subject to the following testing, outlined below.

HORSES IN AND OUT OF TRAINING Anabolic steroids, Non-steroidal anti-inflammatory drugs, Piroplasmosis

14. PERMANENT IMPORT TESTING (see Condition of Sale 24)

Vendors should note that Tattersalls may be notified by the British Horseracing Authority (BHA) that a Lot requires to pass a BHA Import test to be trained and/or raced in Great Britain.

15. WIND RETURNS

Vendors of Horses In Training (including Breeze Up Lots) are reminded that where such Lots are referred to Tattersalls for their wind they will normally be tested under ridden exercise at the Warren Hill gallop (see Conditions of Sale 10, 11 and 12). For all Lots returned to Tattersalls under Condition of Sale 10.8 (a) or (c) a fee of £650 + VAT will be charged to the losing party. This fee is to cover in part expenses incurred in the testing of the Lot. Where a Lot so returned is adjudged to be returnable to the Vendor the fee will be deducted from the Vendor's proceeds in lieu of commission. When a Lot so returned is adjudged to be non-returnable to the Vendor, the fee will be added to the Purchaser's account.

16. FLU VACCINATIONS

Since British Horseracing Authority regulations prevent any horse from running unless it has had a complete course of vaccinations against equine influenza, it is essential that all Lots offered in this Sale have had both of their two primary injections and the third booster injection and that the booster injection has been administered within the last 6 months.

17. RIDERS INSURANCE

Vendors are advised to consider most carefully, and preferably with their insurance advisers, the question of insurance of riders who work for them during the Breeze Up Sale. Some jockeys may be covered under a personal accident scheme arranged by the Professional Jockeys Association. Other riders may be covered separately but Vendors are advised to review the question of accident insurance in respect of all staff employed by them.

Additionally, Vendors are advised to have in place liability insurance in respect of their business.
