

EHV – 1,4 (Rhinopneumonitis) Vaccinations

Vaccinations should only be administered by a registered Veterinary Surgeon with all details entered in the passport.

Latest vaccine must be dated within 2 months of the Sale.

Passport pages detailing EHV-1,4 vaccination details should be uploaded to your Tattersalls Online Account before the mare's arrival for sale. **For older mares, please include the front page/markings for ID purposes.** If a Lot arrives without these details being sent, the mare will be refused entry to Park Paddocks.

Where a mare arrives at Park Paddocks but has not been vaccinated against Rhinopneumonitis she will be placed in isolation and sold in absentia.
